

I Love My XM Satalite Radio and I Love My Local Stations But I Think XM Should Have The Choice of Offering Traffic and Weather. If Forced to Stop Then You Could Be Allowing Serious Accidents To Happen. If Are Allowed To Continue To Broadcast Weather And Say A Tornado Touches down in One of The Areas Then They Could Help To Save Lives But If Forced To Stop Then That Will Cost Lives. And How Many People Like To Find Them Self Driving Up on An Accident In The Middle Of A Busy Freeway Traffic Reports Are A Vital Part Of Living To Know If You Need To Take A Alternate Rout To Work, Pick Up The Kids, And Route Life. So Please Continue To Allow Them to Provide These Vital Services..Sincerely
Steven McMillen
